SUMMARY

Licensed North Carolina Mathematics Educator with expertise in mathematics instruction, virtual learning, and educational technology. Experienced in supporting student achievement through individualized instruction, progress monitoring, and collaboration with teachers and families in online learning environments. Combines a Bachelor of Science and Education in Mathematics with a Master of Science in Information Technology to create engaging, technology-enhanced learning experiences. Passionate about STEM education and helping students develop confidence and success in mathematics.

EXPERIENCE

Learning Coach – North Carolina Virtual Academy (NCVA)

08/2021 – Present
Fayetteville, NC

- Provide daily academic support for two NCVA students in a structured online school environment
- Work closely with NCVA teachers and staff to monitor academic progress, address learning challenges, and support student achievement in a virtual learning environment
- Guide students through math lessons by breaking down concepts into simple, understandable steps
- Reinforce core skills such as multiplication, fractions, and problem solving
- Monitor assignments, ensure completion, and maintain consistent learning routines
- Communicate with teachers regarding progress, challenges, and academic needs
- Adjust teaching approach based on each student's learning style and pace
- Foster student confidence and independence in mathematics through consistent daily support and individualized instruction.
- Support and guide others by explaining processes clearly and effectively
- Simplify complex information into easy-to-understand steps
- Adapt communication style based on individual needs

Admissions Representative / Student Admissions Advisor *Private Online University*

03/2009 – 09/2009
Jeddah, Saudi

- Interviewed prospective students and evaluated admissions eligibility.
- Guided applicants through the admissions and enrollment process.
